- Excursions and trips during the language course
- Individual support

Hamburg – Quality of life in a waterside Metropolis

Hamburg is also called the „gate to the world“. The city is the second biggest in Germany and has a lot to offer: impressive sights, a harbour mood and a multicultural atmosphere, an exciting history and interesting stories and so much more. Beside this Hamburg is also a very green city on the water is not just and of the most beautiful cities in Germany. Even the normally reticent citizens of the Hanseatic city have difficulty hiding their pride about "their" city.

Dresden – Saxony's baroque capital at the Elbe river

The beautiful city at the Elbe river belongs through the wealth of its cultural and art treasures as well as its attractive situation to the prettiest cities of Europe. Dresden has been the residence of sovereigns and kings already since 1425. The most beautiful buildings of the baroque old town were created during the regency of August the Strong (1694 -1733), who was simultaneously also king of Poland. He was a great sponsor of the arts and enriched the saxon treasury with numerous precious objects. About 3000 works out of this collection are issued in the green vault. It is the largest art collection of this type in Europe. <http://www.sights-and-culture.com/Germany/Dresden-Zwinger-2.jpg> One of the most famous buildings is also the Zwinger. In its architecture, the baroque building is modelled on a Roman amphitheater. Another highlight is the Semper Opera house, the Brühl's Terraces, numerous historic restaurants or the spectacular nature called "Elbsandstandgebirge".

Munich- the capital of Bavaria and a must-see for everyone who wants to get to know the south of Germany

There is no place better to experience the typical Bavarian flair and the warm character of Bavarian's than Munich. Munich combines various stylistic periods into a stunning mix of historical and modern architecture. King Ludwig I influenced Munich's townscape with his pompous and generous architecture with broad avenues and the contrast between classicistic restraint and baroque profusion. Bold creativity and innovation have set new architectural accents all over the city. The world-renowned tent roof, the landmark of the Olympic Park, inspires spectators even four decades after its construction. The Allianz Arena is regarded Germany's most beautiful and thrilling soccer stadium. The recently opened BMW Welt is a milestone of dynamic architecture. The best of all? Try a real German "Biergarten" and you would like to stay forever.
