

## How to apply at a German University

Anyone wanting to study at a university in Germany needs a so-called "Hochschulzugangsberechtigung" (HZB), or higher education entrance qualification.

You have the HZB if you:

- 1.) have a Bachelor's Degree or
- 2.) have studied 2 semesters in Taiwan

If you have the HZB, you still need the TestDaF. For this we would recommend our University Prep Course.

If you would like to study in Germany right after you receive High School Diploma and don't know German, or only have a basic knowledge of the language, you have two options from which you can choose. The following chart should give you all the basic information you need to make a decision.
