Intensive German Language Course in Hamburg and Berlin

Hamburg is often called “Germany’s Gateway to the World”. It is the second largest city of Germany and has a lot to offer: impressive sights, an exciting history, a multicultural lifestyle, and the unique atmosphere of its harbour. This Hamburg experience will surely leave you with unforgettable memories. We will spend three weeks in Hamburg to learn about the German culture and, of course, practice the German language intensively. We will then travel to Berlin for one more week. Berlin is a uniquely appealing and charming metropolis. Innumerable sights reflect the contemporary mind-set and *Zeitgeist* of the city, its long history up until the dramatic events of the 20th century. Among other places, we will visit the Brandenburg Gate, the Reichstag, Checkpoint Charlie, and the remains of the Berlin Wall.

The language courses are designed to help you understand and speak the German language and know about the habits and customs of Germany. Depending on your level of German, we will also talk about the academic possibilities in Germany and prepare you for the necessary exam for your study in Germany. If you are a beginner with the German language, we will introduce you to the German university system and explain to you how you can study in Germany after you reached the required language level. If you are already advanced in German, we will introduce you to the academic life in Germany, talk about requirements and conditions for applying to a German university and prepare you for the language exam that enables you to enter a German university. The courses are run by experienced and highly motivated language teachers. You will have the excellent opportunity to improve your knowledge of German according to your prior linguistic proficiency. With the help of an initial entry test we will assess your language competence and find the suitable class for you. There will be no more than 12 students in one class. Highly professional language teachers will use the latest teaching methods and up-to-date materials so that you can develop and improve your learning technique. After completing the course, you will receive a certificate which will proof your level of language proficiency.
